

Pin-Point Solutions: Plastics & Packaging Practice Area

Melissa Poole
Practice Director SME,
Lean/CI and Quality Operations

2017 Packaging and Plastics Update from PinPoint Solutions

Welcome Alisha Pandya!

Due to increased growth in our packaging and plastics business, PinPoint Solutions has added Alisha Pandya to our thriving business to, both, support our recruiting efforts and further the develop the growth of new clients.

Alisha joins our practice having completed PinPoint's exclusive Recruiter Training Program. Alisha has had success placing candidates in the product marketing space, as well as, developing 2 brand new packaging clients in our successful practice.

Staff Spotlight: Melissa Poole

Melissa has a BSBA from Mount Olive College and a MBA specializing in Human Resources from Liberty University. She has over 10 years of recruiting industry experience. Melissa started her career in the healthcare industry recruiting physicians and nurses for emergency rooms nationwide before joining Pinpoint.

Melissa joined PinPoint Solutions as a Sr. Executive Recruiter in 2008. She specializes in difficult niche searches and quick candidate generation. She believes that recruiting should not be about pushing paper at clients but performing a search which has translated to great success for her clients. She is always interested in talking with qualified, skilled professionals who place a premium on managing their careers with industry insight into new opportunities that meet their personal and professional goals.

Melissa works in various industries but has spent the last year developing and building out the Packaging and Plastics Practice area at PinPoint Solutions. Due to economic ebbs and flows, one industry remains a constant and that is Packaging and Plastics in the consumer industries. As we have grown this business, we continue to develop relationships with companies focusing on the actual packaging as well as packaging equipment organizations who supply these organizations.
